Family Hearth

Charitable program to support foster families

Current challenges

498 thousands of orphans in the country:
2% kids in Russia experienced orphanhood.

More than 40 thousands of them are in Orphanage.

Most of them are:

- older than 10 year old
- siblings
- with disabilities

The only chance for such children to find the Home is an experienced foster family that is not afraid of the difficulties of adolescence and is ready to take in several children at once.

Eco – Farm “Semeevo”

We are building the Semeevo eco-farm in the Tver region to support those families. Having improved their living conditions, they can continue their journey in foster parenting and take care of more children who have lost their families.

We provide foster family with:

Plot of land in our village

Big house

Mini farm

Mental health support

Tver region

3

Families
found their home in our
eco-village

39

Children under 18 years old are
brought up in our eco-village, 35
of them are adopted

18

Children were taken under
custody as part of "Family
Hearth" program

7

Graduated the program
reaching 18 years old

Please meet Bogachev family who joined the charity program in 2019. At that time, the family already had 9 children, five of them were adopted. In the summer of 2020, the Bogachevs took custody of five siblings at once - the youngest was 3 years old, and the eldest was 13. They took three more children into the family in 2022. Now there are 17 children growing in the family, 13 of them are adopted.

Families taking part in “Family Hearth” charity program are engaged in agriculture on their mini-farms.

Our goal:

- Ensure financial independence of foster families.
- Demonstrate to kids that work is the key to a decent independent life.
- In the current socio-political situation, prove the importance and value of honest and constructive work.

The eco-village has united people who want and love to work on the land and are happy to provide agricultural skills to their own and adopted children. Foster parents from the “Family Hearth” program lead by example and demonstrate the importance of work and how fulfilling it is to see the result of their work.

Children obtain profession in agriculture that gives them a great chance for a decent future

Our charity project provides children with a variety of life paths: those children who would like to follow the example of their parents in a family farm acquire basic agricultural skills and obtain the profession of a farmer in future. Others, leave the farm to study at colleges and universities.

Project Development Plans

- ✓ Expansion of our eco-village, building new houses
- ✓ Launch of agro project in our eco - farm

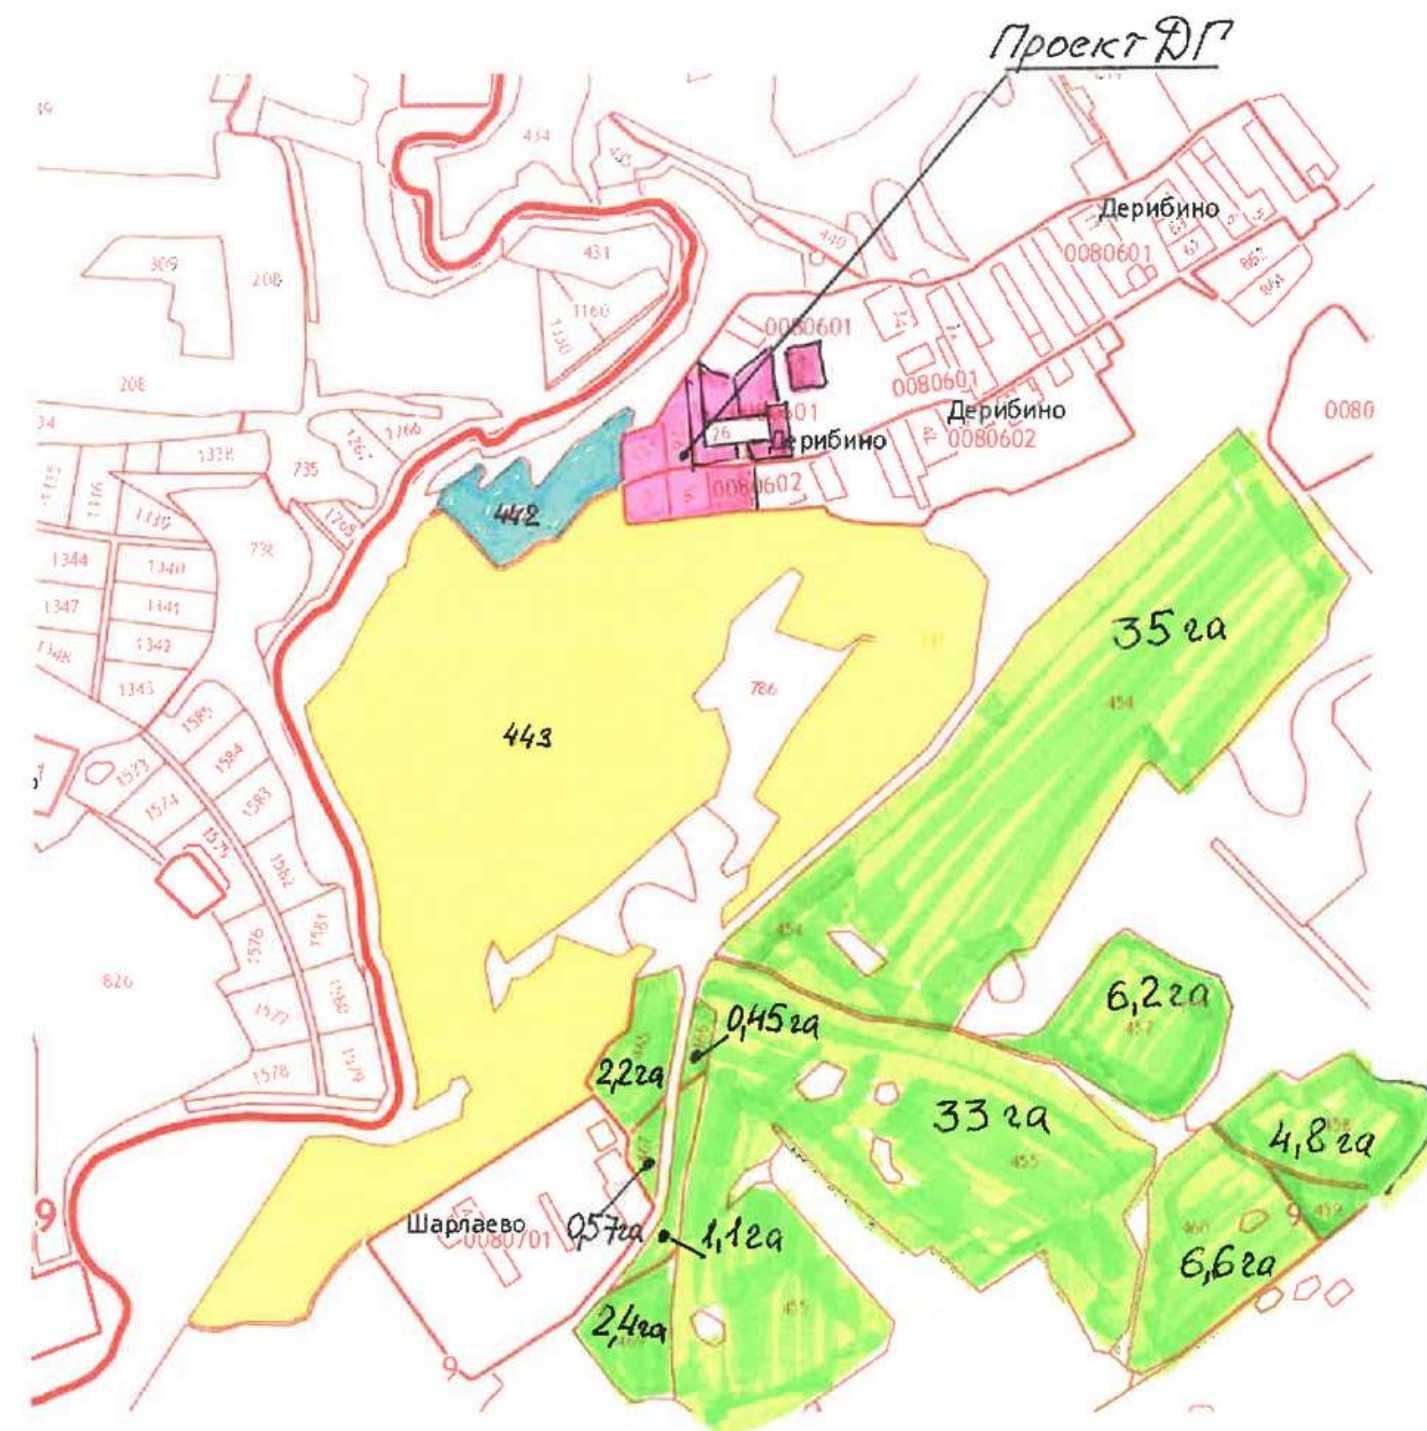

Схема. Прилегающие к Проекту ДГ земельные участки сельхоз. назначения

Площадь участков:

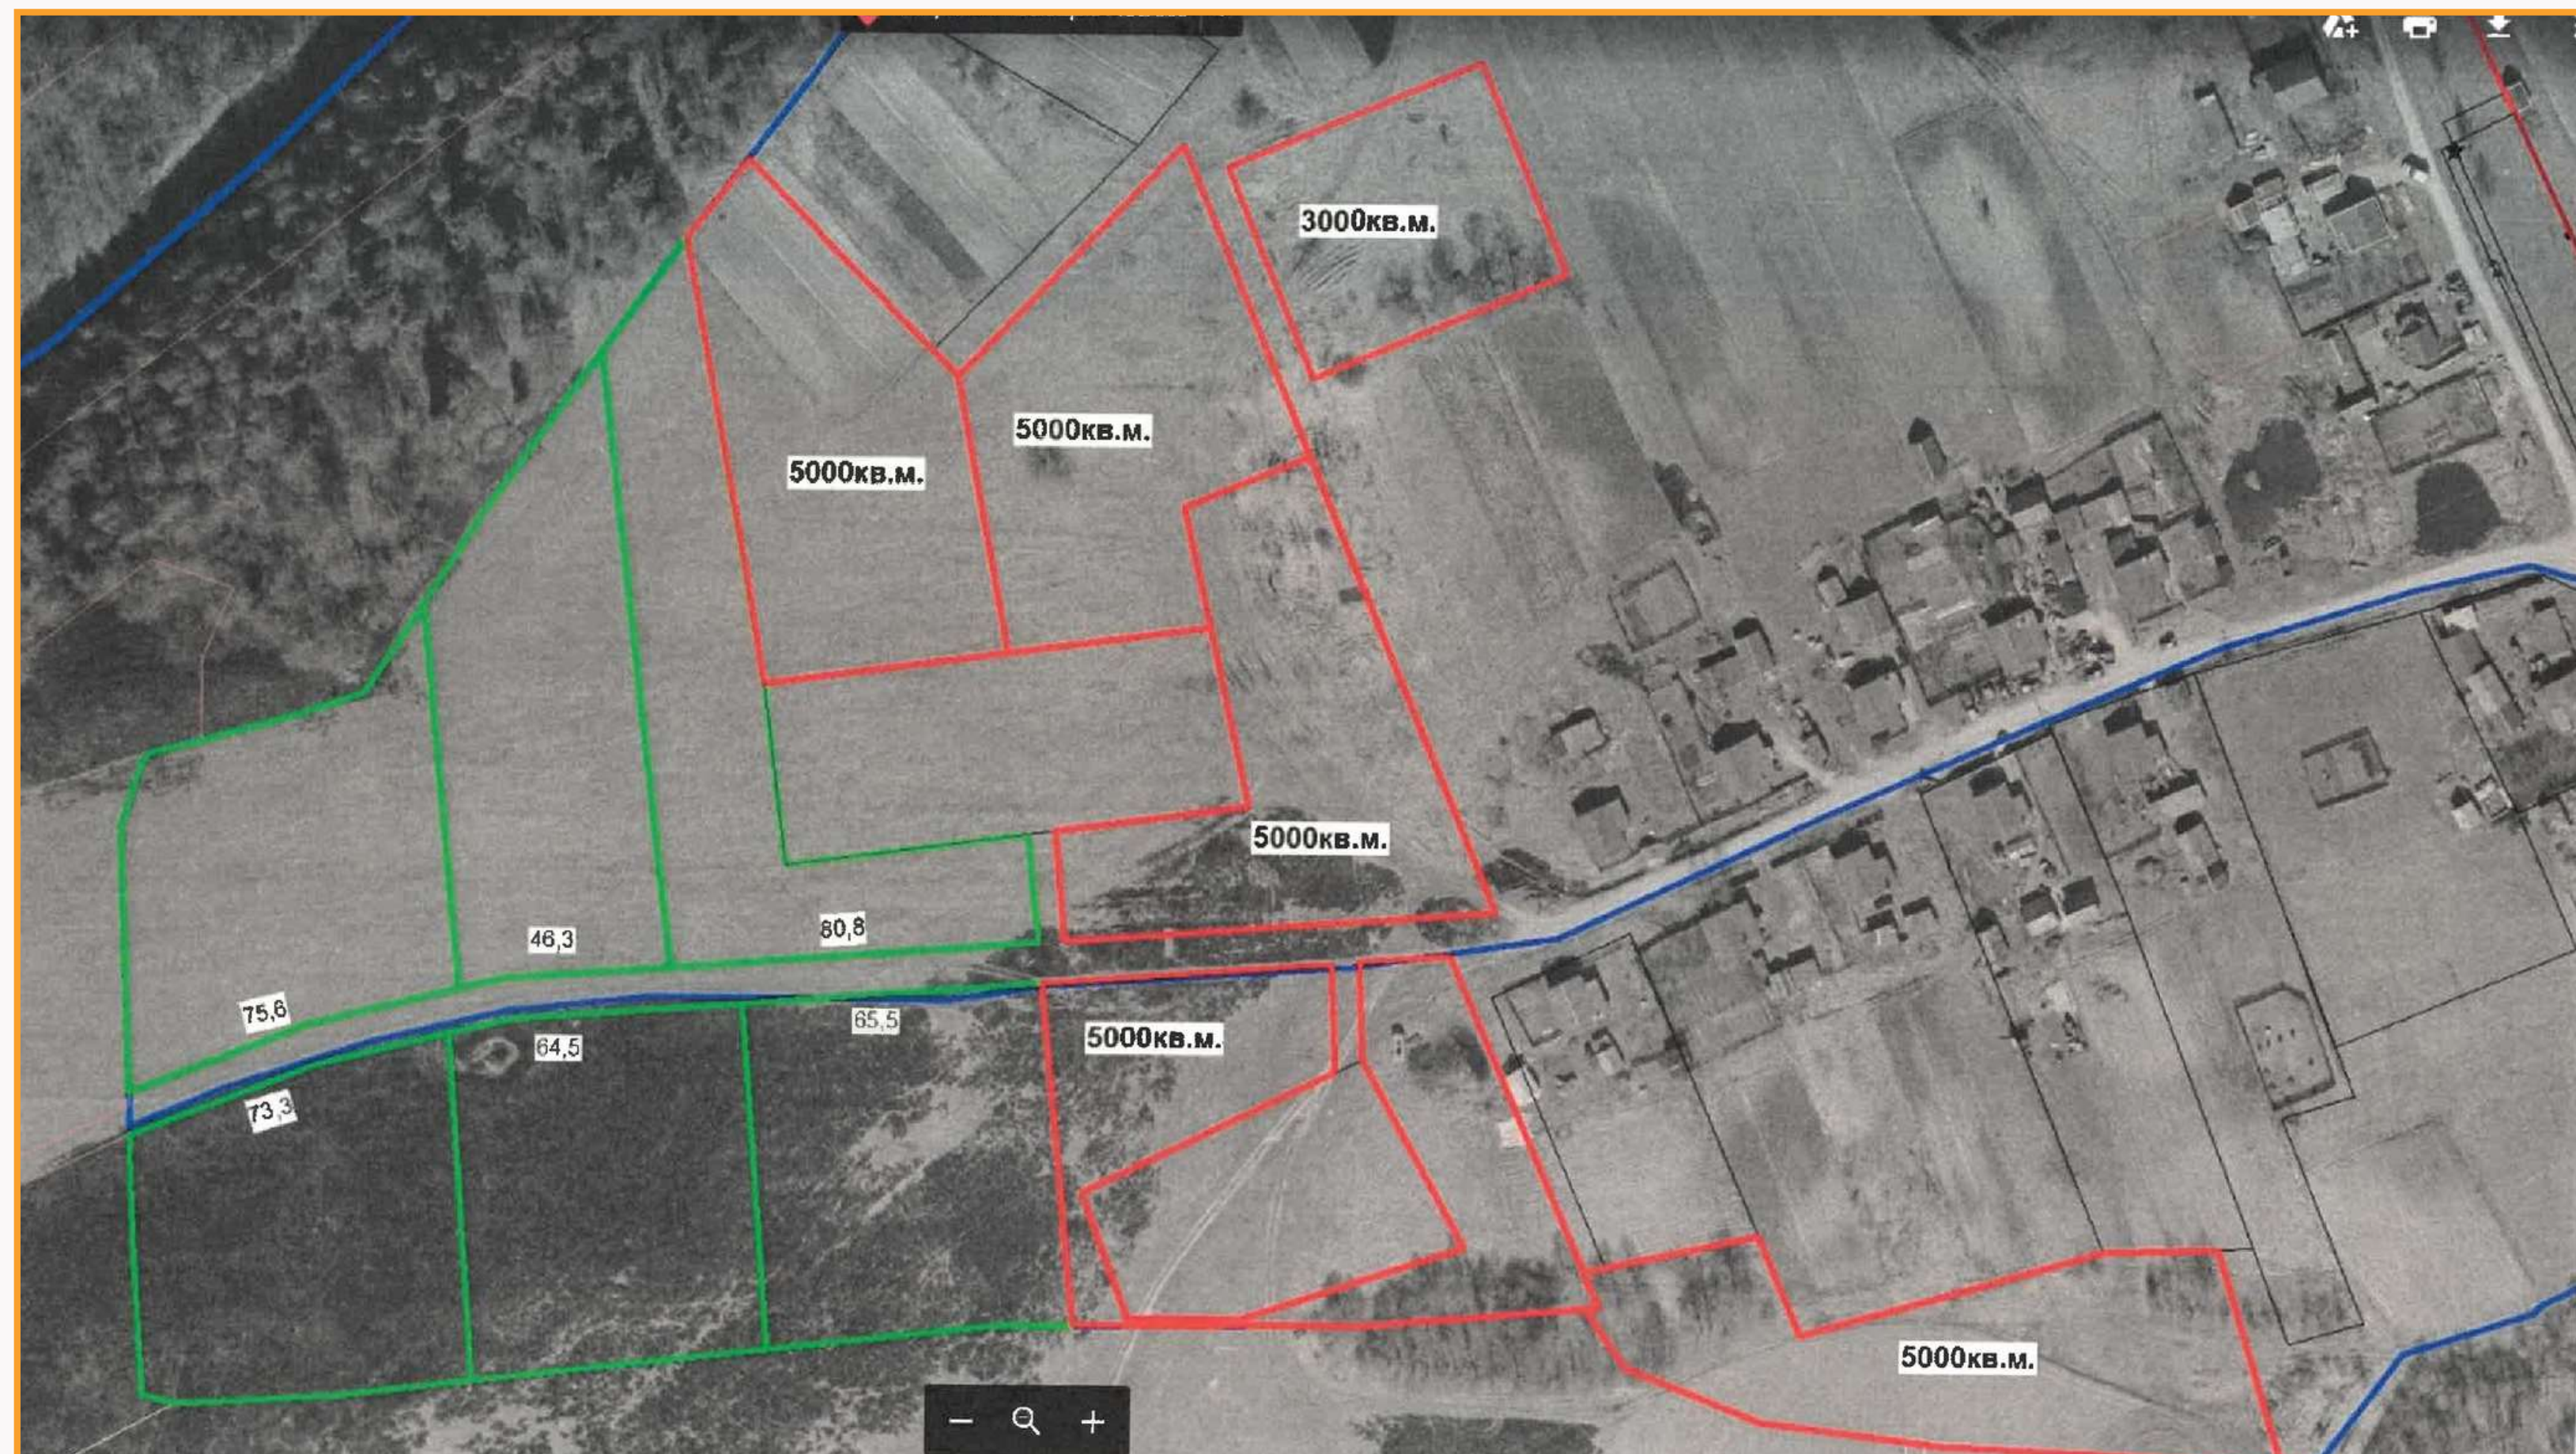

сх - участок 442  - 32 578 кв. м.; (3,2 га)

сх - участок 443  - 649 158 кв. м. (64,9 га)

Проект ДГ  - 48 000 кв. м. (4,8 га) 10 участков

сх участки  - 923 200 кв. м. (92,32 га) 10 участков

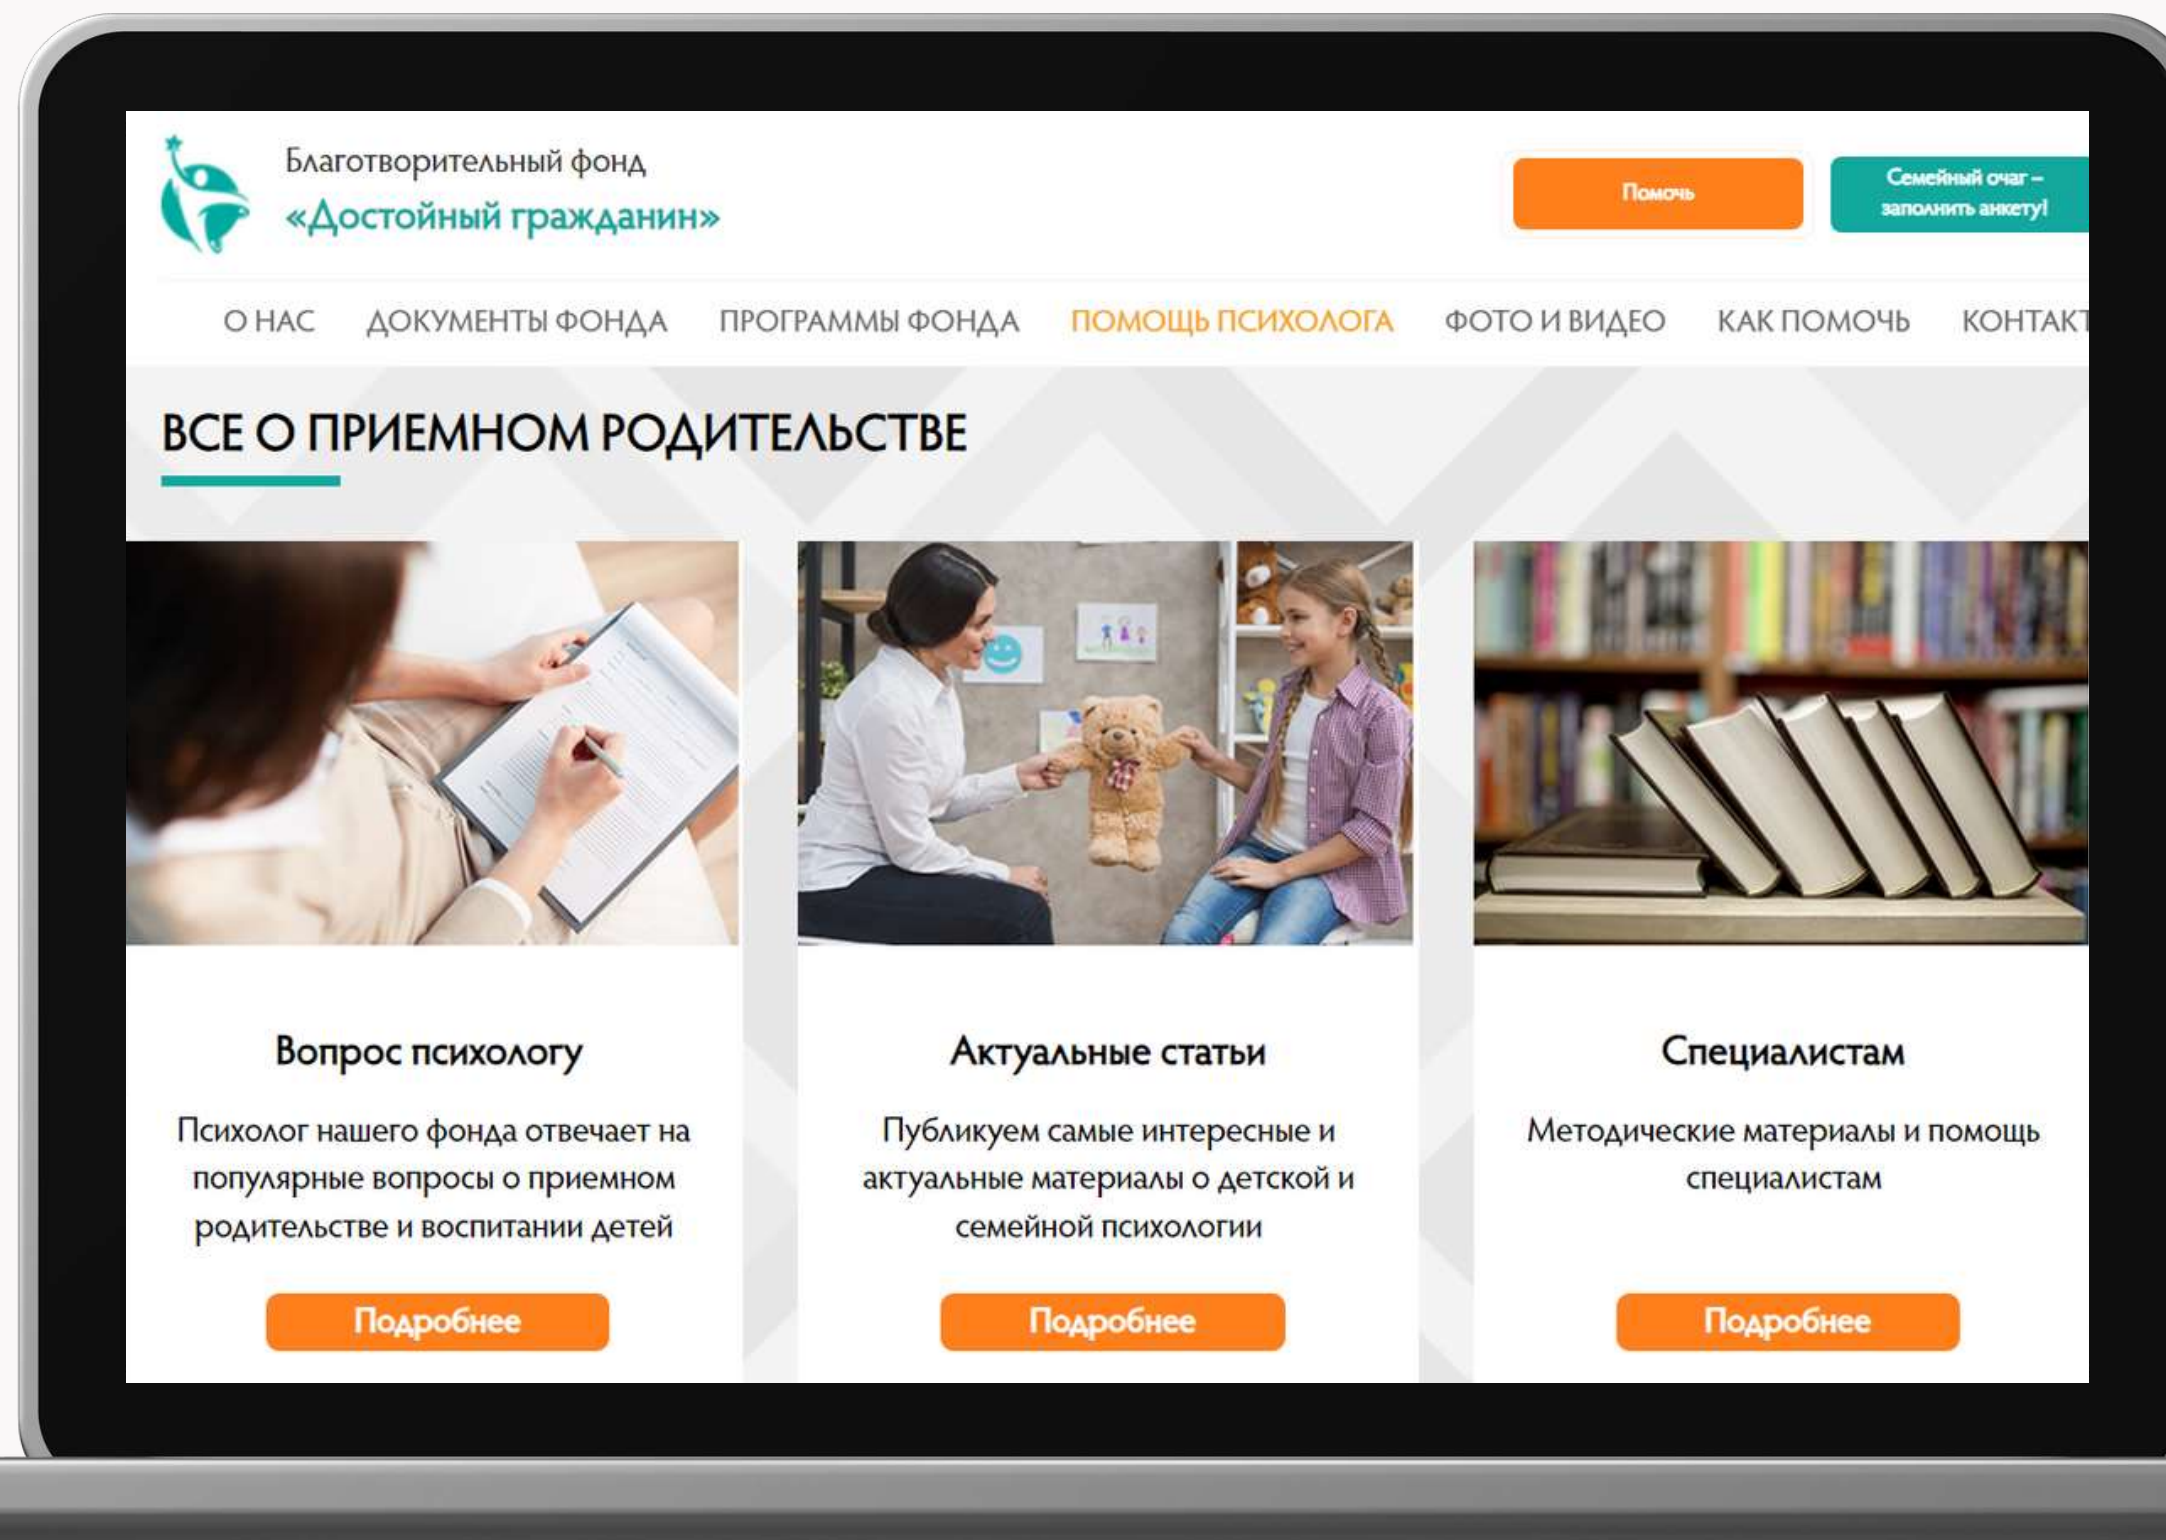

Plot of land for
agricultural purposes

All about Fostering

Online platform for current and future foster parents

Main challenges of foster families

- A large percentage of children returns to orphanages: according to statistics, every sixth child of foster family ends up in an orphanage again.
- Lack of knowledge about the psychology and characteristics of orphans by adoptive families brings difficulties in raising children with orphan experience
- Established negative stereotypes in society about orphans and foster families.

Our Goals

Support Foster Families

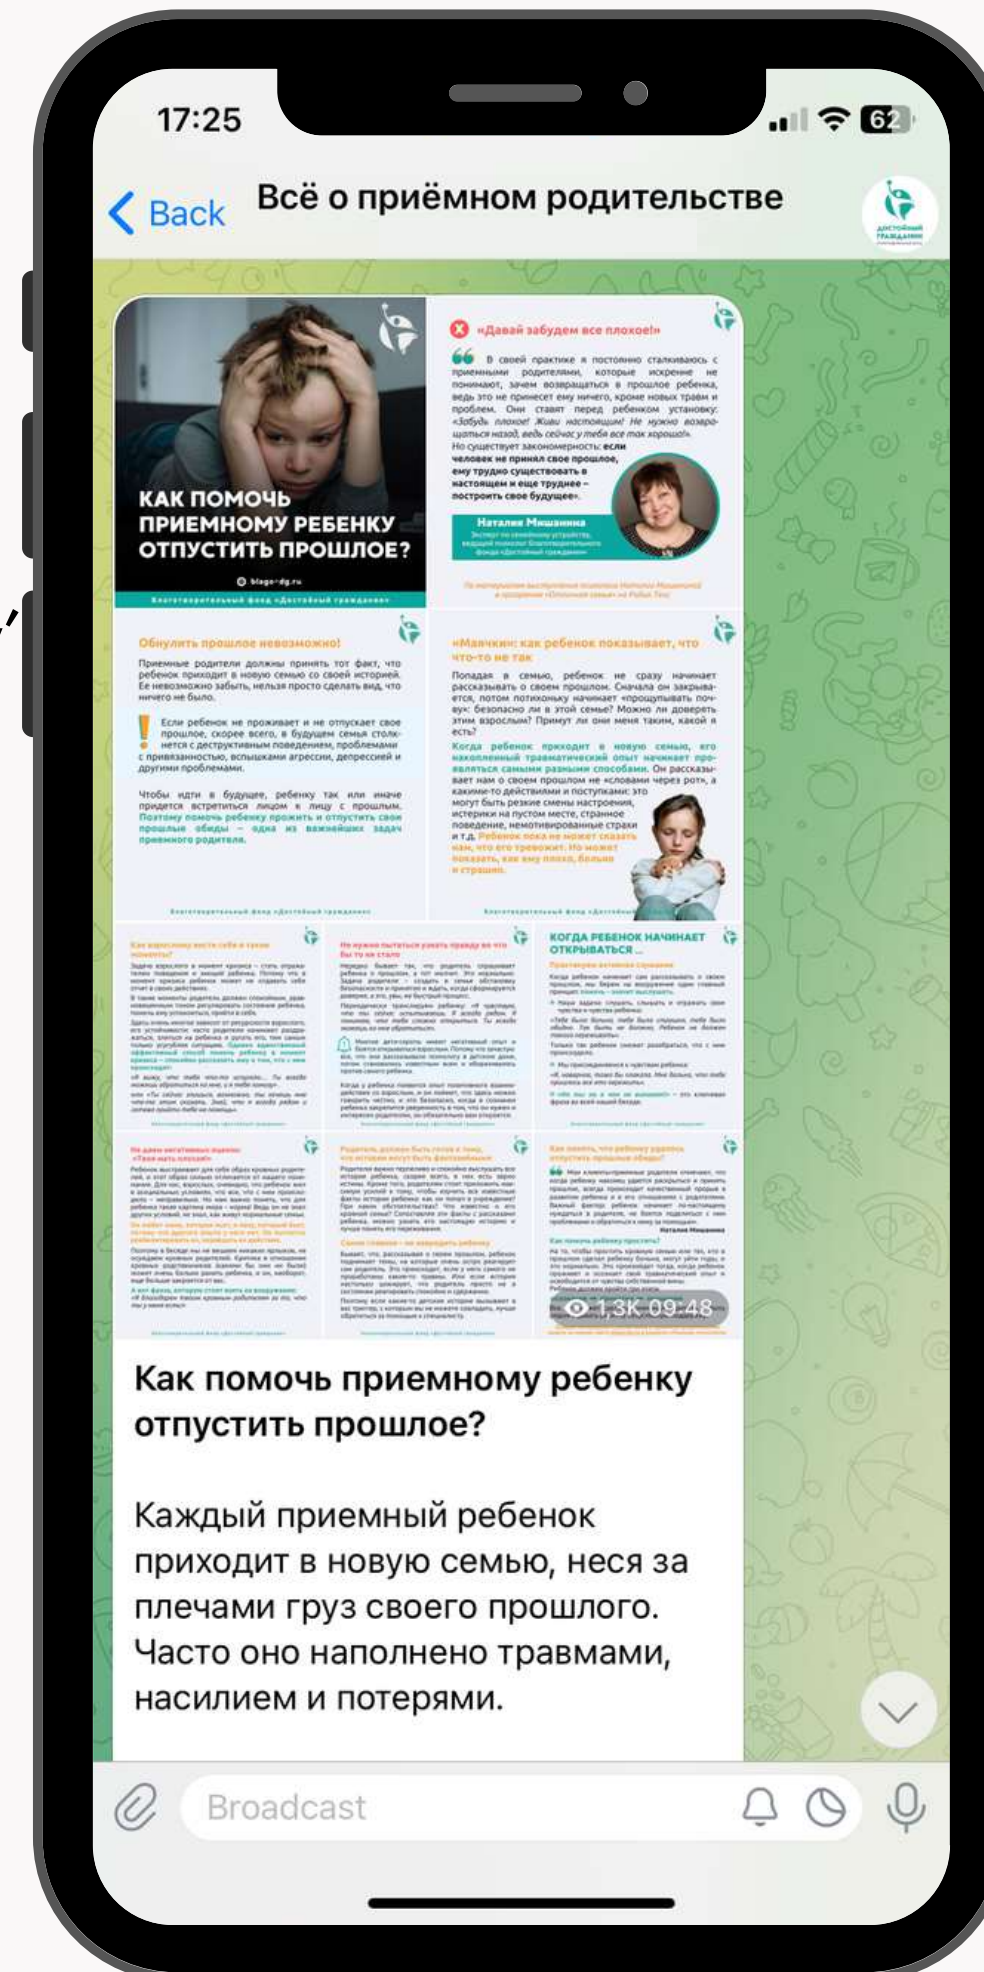

Educating society on issues of social
orphanhood

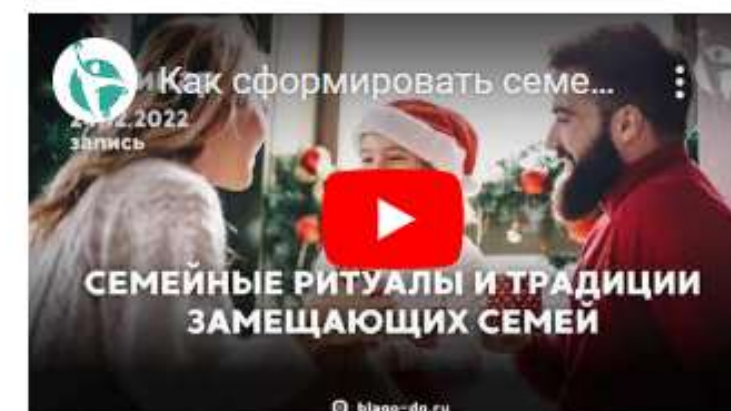

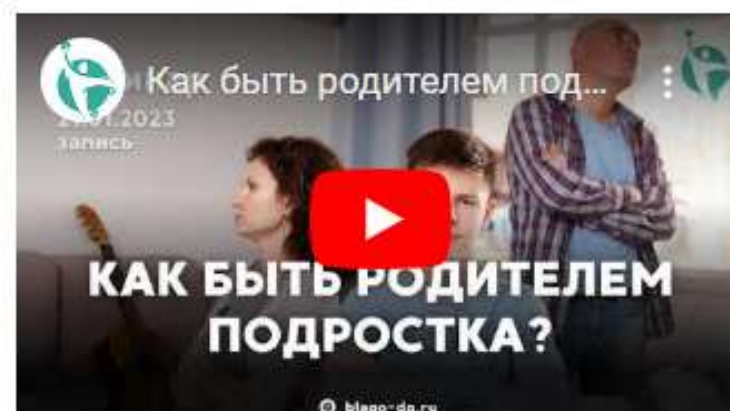

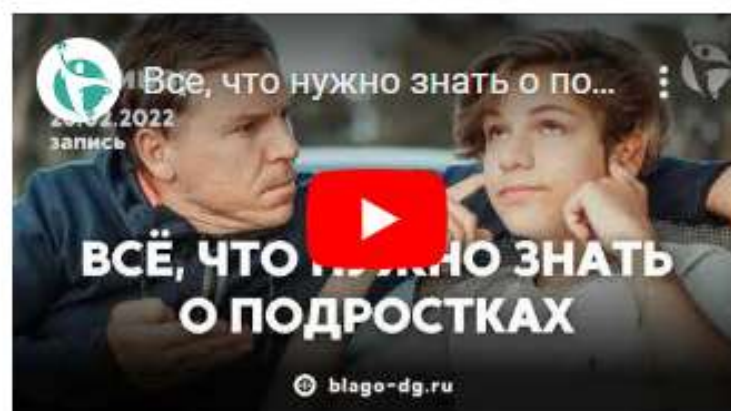

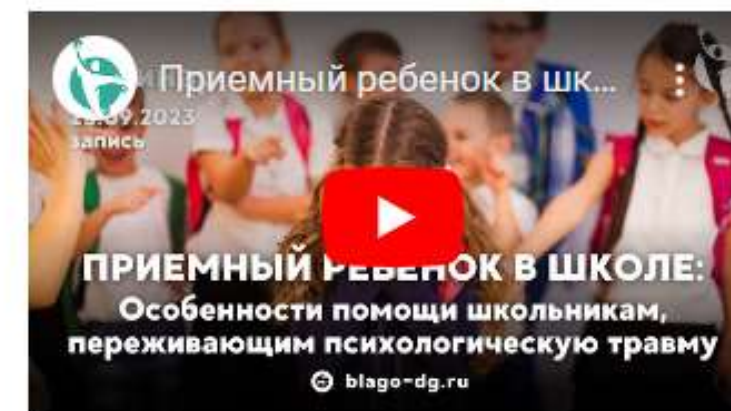

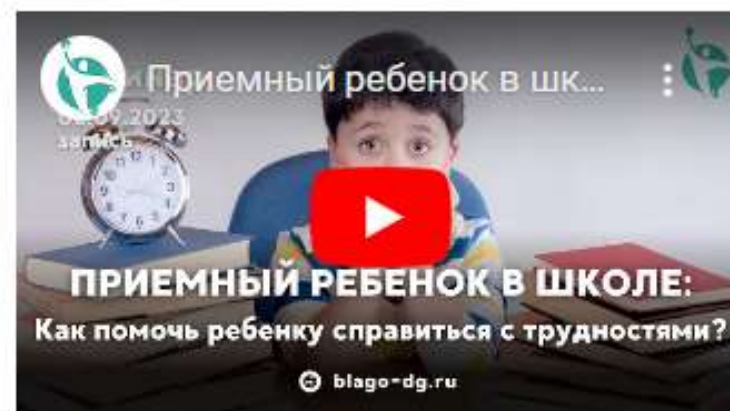

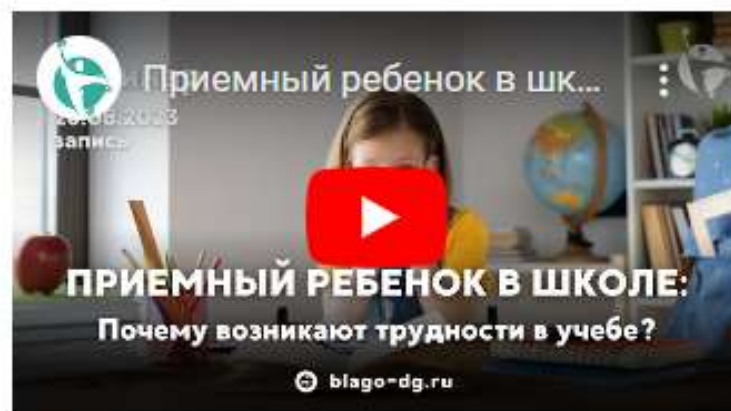

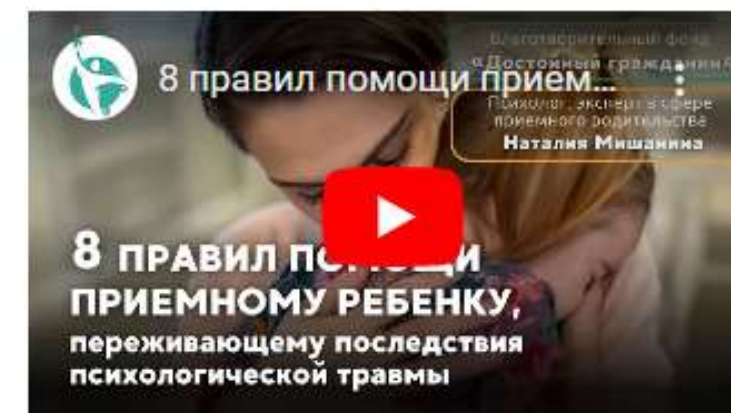

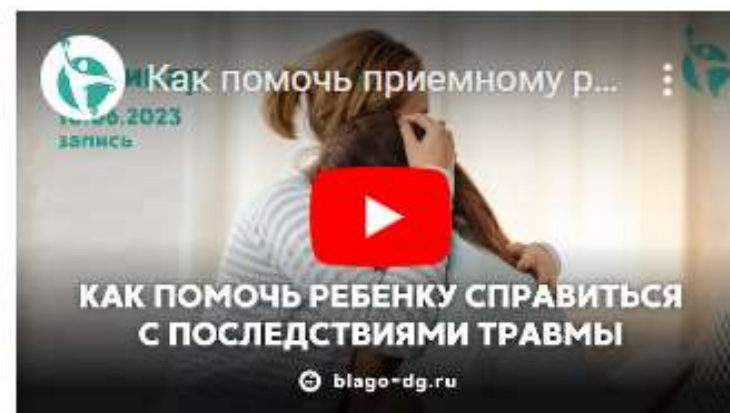

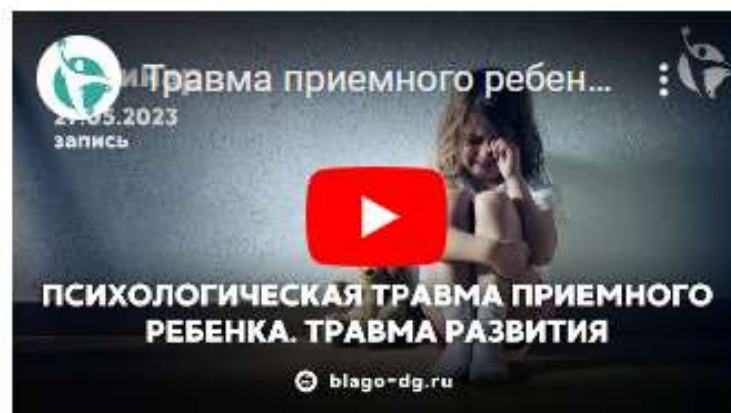

Project milestones:

- Online platform for foster families
- Educational seminars as part of 'Foster Families University'
- Development trainings for children of foster families
- Free consultation with psychologist and therapist

Как помочь приемному ребенку отпустить прошлое?

Каждый приемный ребенок приходит в новую семью, неся за плечами груз своего прошлого. Часто оно наполнено травмами, насилием и потерями.

Project Development

- ✓ Launch of resource groups for foster parents
- ✓ Training program for teenagers from foster families
- ✓ Training for coaches and teachers
- ✓ Work with pupils and graduates of orphanages
